MR. HOOVER IS CATCHING trout in Oregon.

Governor Smith is catching kingfish and swimming in the ocean off Long Island.

It is the hill before the political storm. And it will be a real storm when it starts, with new features.

Republicans realize that they have a hard fight ahead in New York State. Already it is announced that Hughes and Borah will stump New York in October. The big guns will be used for the hard fighting.

Killing men by electricity is old, but Joseph Kameny's killing was unusual.

Only 20 years old, Kameny confessed he killed Dr. Gerald Kelly, because the latter had advised the amputation of Kameny's leg, injured in a mine accident.

When he found he couldn't work as a miner, Kameny became a murderer for revenge. He hobbled to the electric chair yesterday morning on crutches.

This was the novelty.

Gene Tunney, whom certain prize fight "fans" don't like, because he has brains and they haven't, will retire from the ring. That, it is said, will "hurt the game," which is too bad. No matter what champion they may develop to collect money from fools, it can never be proved that he could have beaten Tunney.

Tunney, you read, "is going to Paris to study philosophy." An excellent place. The Sorbonne is well equipped.

But the important thing is to be a philosopher, not merely a student of other philosophers.

If Tunney can take his \$2,000, one quickly earned out of prize fighting and stay out he will have proved himself a real philosopher.

Mr. Eastman, king of all kinds of photography, announces perfected moving pictures in colors. With that announcement, pictures reach full development, MOTION, COLOR, SOUND.

Now you will see the heroine's or the rhapsody's rolling eyes, hear the voices that lure men to their doom. The new picture stage will show all that the living stage can show.

Talking movies will put a premium on intelligence. A cultivated voice indicates a cultivated mind, and cannot be created over night.

Science offers an idea to prohibition enforcement. It is not necessary to break down the speakeasy door. Simply shoot a little gas, the right kind, through the keyhole, and all the speakeasies will come hurrying out of their own accord. The place would be uninhabitable.

Chief Justice Hall of the Superior court, Dist. Atty. William C. Cross, Jr. was seeking a special session to handle the strikers' case. Still defying the edict of the city authorities, who asserted that picketing in large numbers was illegal, strikers were out in force at the mill gates today and further serious trouble was feared this evening when their numbers might increase. If the practice of previous days is followed.

FARMERS IN RESCUE
National guardsmen, who with first bayonets halted the demonstration last night, were in reserve in the armory today, while Paul River police were still on duty against the local strikers.

The night at the police station was described by Chief McLeod as "a wild one." The shouting and shouting of those in the cells could be heard for several blocks. At daybreak about half of them were asleep on the floor while others still rattled the cell doors and shouted epithets at police guards.

With their parents' heads up, many children were found wandering on the streets or seeking shelter with neighbors. Police referred three cases to the Children's Aid Society.

Those unaccounted for children presented an unexpected problem. Six girls, the children of John O'Brien, were found in the streets of the city at night, crying and alone.

From every part of the city throughout the night, the police received calls regarding children who were left alone and were crying from fear and hunger.

party a writ of possession granted in Suffolk Superior Court have proved futile, those within refusing to open the barred doors.

Strategy, in lieu of force, was resorted to by the "faction without" today when they ordered the water in the church shut off by the city. City officials complied, having no other course in view of the court decree.

In similar fashion the "faction within" has been deprived of telephone, gas and electricity. The protesters insisted they had not had food in four days, but it was learned that foodstuffs had been smuggled into them.

Police officials issued orders to patrolmen on guard to prevent food going in, but by tossing bread and other edibles through the windows and onto the balcony and by other means, friends were able to circumvent the plans.

FOOD SMUGGLED
Shutting off of the water, however, makes the plight of the besieged men serious. It will be difficult to smuggle water to them, and the police expect that thirst will drive them out.

Two police officers, one in front and one in the rear, remained on guard all night, continuing the police vigil that has been in effect since July 21. Until midnight there was a crowd constantly about the church. At times it numbered 300 to 500, but police kept them moving. Most of those outside were women.

Father Harman, who had been refused admittance by the police Saturday after he had come out of the church, managed to get back in by a clever ruse. While a crowd of sympathizers attracted the attention of the officer stationed at the rear, he rushed to the door with several companions. By great ruse, the door was suddenly opened and the priest entered and again took command.

LEFT RICHES, LIVES IN BARN

2 MILLIONS FOR POORMAN LUNENBURG

Lunenburg, July 31.—From the squalor of a stable to the luxury of a palatial mansion—from the depths of poverty to untold riches. This is the strange story of C. Arthur Hawes of Hollis, N. H., who has fallen heir to an estate of \$2,000,000.

For six years Hawes and his family have lived in the stable. A year ago he was arrested for neglect of his children and a short time later was arrested for not sending his children to school.

Today, Hawes can afford to employ a corps of private tutors for his children and can employ a retinue of servants to attend to their every want. He does not feel inclined to look after them, himself.

Hawes has inherited the \$2,000,000 from the estate of his father, the late Francis T. Hawes. For many years head of Chamberlin & Co., real estate dealer of Boston.

All advance portion of the inheritance, some \$20,000, has been paid over to the sons and the evidence of this money are already apparent.

The barn is being remodeled and made into a substantial structure, which will be used by the Hawes family until a mansion can be erected on a plot nearby. Another palatial home is to be erected in Fitchburg. There will probably be a villa in Florida and possibly one abroad.

TRACE GUNS IN YALE MURDER TO SCARFACE

New York, July 31 (AP)—Police announced today that they had positive information that the weapons with which Frankie Yale, gangster, was shot to death in Brooklyn came from the arsenal of "Scarface" Capone, Chicago mobster.

The history of the weapons, a machine gun, a shotgun and a magazine pistol, was revealed, it was said, during a conference between Dist. Atty. J. J. Ladd of Brooklyn, police inspectors, Parker A. Henderson, Jr., son of a former mayor of Miami, Fla., and Chief Reeves of Miami.

Police said they learned today the guns had been purchased in Chicago and shipped to Capone in Miami, where he occupied a palatial residence. Police said they also learned that at least four Chicago gunmen had been in conference with Capone in Miami shortly after the shipment of the weapons. These gunmen, it was said, after leaving Capone purchased tickets for Chicago, making a point of showing the tickets to various railroad employees and others, an obvious manufacture of an alibi.

Instead of traveling to Chicago, it was asserted, they came to New York shortly before the slaying.

Police said the gunmen were instructed at Miami to "get Yale." Detectives announced they soon hope to have these gunmen under arrest. Police did not explain Henderson's connection with the investigation, beyond saying he was a friend of Capone.

He believes the fugitives are hiding in the city.

SPANISH COUNT STAR'S FUTURE HUSBAND

New York, July 31 (INS)—Ruth Donnelly, stage favorite and former leading woman for George M. Cohan, today announced her engagement to Juan, the Count of Cesa, a cousin of King Alfonso of Spain.

The countess will return from Paris to be married to an American. The wedding, according to the announcement, will take place at Thanksgiving time at the home of Donnelly's uncle, Mayor Fred Danahy of Trenton, N. J.

Miss Donnelly, author of the play, "The Girl," now playing the English provinces, is at her Paris home, Rue de Valenciennes, working on a new play.

Some 17 years ago Miss Donnelly was in the chorus of "The Gaiety Girl" at the old Park Theater. Since that minor engagement she has been in her profession. Graduating from the bar, she played for a season with Rose Stiel in "Maggie Sawyer," where her talent for light comedy marked the real beginning of her career.

She followed this success with prominent roles in three hits, "Gloria," "A Prince of Thieves" and "As You Were."

The countess has been selected by a prominent newspaper and the last an admitted ally in the Far West column.

BODIES OF TWO MEN FOUND IN WATER

The recovery of the bodies of two men, one from the Charles river and the other from Port Point channel, presented Greater Boston police with identification puzzles today.

In the Charles near Spring at bridge at Dedham, two canoeists, Arthur and Gilbert Peterson, cousins, discovered the body of a man about 50, which had been in the water a week, according to Medical Examiner, Dr. J. J. Connelley.

A pawn ticket made out to Harry Hachadarian, Center St., West Roxbury, was the only clue to identification on the body. A man of that name was rescued last Monday in a West Roxbury fire.

The second body, that of a man about 25, was recovered by the crew of the police boat, Edwin U. Currie, off the Broadway bridge in the channel. It was that of a man about five feet, eight inches tall, weighing 135 pounds, clothed in a blue serge suit, striped socks and black shoes.

LOOKOUT COURT AT MARBLEHEAD ATTRACTS, SAYS BETTY ALDEN

Hollyhocks Adorn Gardens in Restored District

HOLLYHOCKS flaunting their cool, bright colors against gray shingles, or swaying above picket fences. They are the perfection of simplicity demanded by old-fashioned gardens set about the primitive houses built when former centuries were young. The Orlando Roundlands know all this full well, and have contrived all this color to adorn their informal gardens where famous Lookout Court dominates ancient Marblehead. Other seasons while the court and its snugly-in house were being faithfully restored, visitors to the narrow bway considered its manifold charms and were enchanted at the prospect.

NOW THAT THE HOLLYHOCKS RIOT EVERYWHERE they should, to complete a perfect old-fashioned garden, visitors was more enthusiastic still. Mrs. Roundland it is who drives so successfully in this garden planting. While Mr. Roundland pursues his artistic way in the studio workshop that is one of Lookout Court's chief charms. The studio looks as though it had been standing in the court for two centuries or more, when in reality it was an Essex habitation, discovered by the Roundlands before demolition, set on as a treasure of design and architecture, and so brought piece by piece to Marblehead to be a famous artist's studio.

IT IS THERE IS A PLEASANTLY INFORMAL five o'clock relaxation, with opportunity to admire the primitive woodwork, the staunch beams, and the decorative bits due to the Roundland taste and discrimination. Marblehead, to an artist of facility in oils or watercolor, offers countless garden vistas and quaint bways. Mr. Roundland, at one time or another, has found practically every one, and given them permanence in paint. One may view certain portraits, too, although a recent and much applauded one of the late Chauncy Dwyer may be seen only in the photograph.

THE WALTER KEITH SHAW'S OF CONCORD are adding to Lookout Court's attractiveness this season, as they remodel and restore a tall old house on the seaward side. The Shaws intend to have the place for their summer home, such time as it is completed to their entire satisfaction. And then the younger Shaws (she was Helen Sargent) will occupy the tiny house just across the court, now belonging to the seniors. Restoration to court dwellers is an unceasing labor of love. It has been going on for several years now, until today the measure of perfection they themselves set is about to be attained.

BOUND OVERSEAS ON BUSINESS of state and nations and of general international importance, Richard B. Wigglesworth is a recent traveler to Europe, where diplomacy is a forte. Mr. Wigglesworth eventually arrives in Berlin, his particular mission having to do with the Reparations Commission and its ramifications. He sailed away on the Ile de France, in company with Edward C. Tatt, and late last week landed on French soil. Mr. Tatt goes to join Mrs. Tatt, do a late summer tour and come back some time in the autumn.

A GROUP FROM LONDON, now in this country and doing a New England tour via motor, had on the weekend reached Plymouth. Sir Jonathan Bird, Lady Pearl Newton and others of the party found in the Pilgrim shrine much to claim their attention. The Rock, of course, was visited, and whatever other relics of colonial days remain unchanged in the historic little town. Their names were inscribed in the register of the Bradford Arms, now an attractive way-side inn, but in other days dedicated to the education of little girls of the colony, the first "House School" to be set up on these shores, so the records have it.

MARVELOUS IT IS TO SHOP in Paris. Any girl, even the most blasé specimen of today's feminine gender, thrills to the marvels turned out at a famous Champs Elysees gown emporium and to French headgear whose name label is a gauge of its smartness. But to most of all the thrills of shoppers it is the bride-to-be for whom Paris becomes a fairy land of perfumes, chaparrons, frocks and accessories. Miss Isabel Thorndike, who has been in Paris for some of her trousseau, and since the paternal letter of credit was more than substantial and Miss Thorndike's taste impeccable, some very choice and decorative things came home in her boxes.

A BRILLIANT NUPTIAL EVENT is to unite Miss Isabel Thorndike and E. Bennett Phelps, celebrated in Bar Harbor, time honored stronghold of aristocratic traditions. Mr. and Mrs. Harry Hill Thorndike, parents of the bride, in themselves unite Bostonian excellence with Gotham haute monde, and being always doing parents, adored daughters may be depended upon to stage a wedding with great elegance completely surrounded by dinners, dances, luncheon and other "musts" of the moment. Miss Thorndike is to have a tremendous send-off. The festivities commence days in advance of exchange of marriage promises, and the guest will be dancing even after the happy bride and bridegroom have dashed off on the honeymoon. Braves and Pirates in Single Tilt Today

By NICK FLETLEY

THOSE hustling Pittsburgh Pirates will try to make a clean sweep of the Braves series at the Wigham by grabbing off the final contest this afternoon. Donnie Bush's club is raring to get up closer to the race, and looks like one of the best outfits in the league just now.

The champions have found their stuff, almost too late to do themselves any good. They are twelve games back of the leading Cardinals, and that's a fearful gap to close in the two toughest months of campaigning.

But such things have happened. The Pittsburgh fans keep reminding the athletes of the year when the Pirates were seven games ahead of the flock on Labor Day and kicked away the pennant.

Things happened against the Pirates that year. Players and owners are praying for a break in the opposite direction in this mad campaign.

THE Corsairs won the double header from the Braves, but Master Hornaby's athletes made quite an impression on the visiting firemen. Both games were bitter, but the Pirates were victorious each time at the finish.

One went by one run in nine innings, while the other progressed a frame longer before the hostiles could get the best of them.

Fact that the Braves are making the grade of best of the best even though the team doesn't show all the pep in the world. The young men have been down so low that nothing but a couple of weeks of victory will bring back the normal spirit.

One went by one run in nine innings, while the other progressed a frame longer before the hostiles could get the best of them.

Fact that the Braves are making the grade of best of the best even though the team doesn't show all the pep in the world. The young men have been down so low that nothing but a couple of weeks of victory will bring back the normal spirit.

THE Corsairs won the double header from the Braves, but Master Hornaby's athletes made quite an impression on the visiting firemen. Both games were bitter, but the Pirates were victorious each time at the finish.

THE National Commission on the part of the Cardinals, which may influence it in the four-game series with the Cards, which starts tomorrow. Over the past month five clubs have been playing better than .300 batted and two of them have stepped a quite a bit faster than the leading Cards.

If the Braves can halt the St. Louis outfit, the other four can probably will march right up alongside the pinnacles. Here are the records of the clubs with chances, for the July campaign:

Chenail 10
St. Louis 10
Pittsburgh 10
New York 10

Where only six games separate first place from first with August taking over the season, a wild finish has to come along. The Braves can help the excitement by slowing the Cards a bit.

Olympic Defects
Too Many Cooks
Over-Confidence Hurt
By NICK FLATLEY

SOMETHING WRONG WITH OLYMPIC METHODS

ALL the speed and strength in the world is not confined to these United States, as the boys over in Amsterdam discovered on the second day of the Olympics. The results in the 100-meter dash were especially illuminating in this regard. Young Frank Wykoff, admitted beforehand to be the greatest floor ever discovered, finished fourth, where he was expected to win and perhaps set a record.

Frank, a schoolboy, was in trouble at the start, and when he finally did get going, he found too much speed in front. He was a kid and the fitter was natural. It would incline one to believe that some different method of Olympic selection is necessary.

Three of the fastest humans—Borah, Scholz and Padcock—sat on the sidelines while the other U. S. States were being looked. All three of the spectators are competitors of remarkable experience and courage. Borah, particularly, should have been in there, even though he did not go in the tryouts for the short dash.

Going by the results of a single meet is not good policy, where real champions are likely to be discarded. The best athletes of the country should be on the mark when the gun is fired in any Olympic event.

He did not go over because he happened to trip when he was leading a field that equalled the Olympic record in a semi-final heat at Cambridge. Regardless of the fact that he touched that same mark himself the day before. Felt Elkins, victim of an accident, did not get a place, although he outlasted the rest of the Americans in the deaththrust.

America was not a single race in the last Olympic. Times and trials seemed to indicate that things would be different this year. But the early results are discouraging. Seems to us that the Olympic teams are surrounded by entirely too many rules, regulations, officials, coaches and trainers.

The voyage to the games should be a serious training period, also, and not a transatlantic excursion.

TENNEY DOES NOT NEED TO STUDY PHILOSOPHY. HIS OWN SYSTEM OF KEEPING IN PERFECT SHAPE IS THE ANSWER TO ALL PROBLEMS.

ATHLETICS HAVE CHANCE TO CATCH YANKS

Surprises never cease in baseball. The champion Yankees, a few short weeks ago all set to establish a new record for victories in a season, are hearing just now the thunder of real pursuit. Connie Mack's Athletics are on their trail. As things are going now, the As have a mighty good chance to catch up and thereby furnish one of the greatest of all baseball surprises.

The Yankees, with fearful power and plenty of class, coasted out to a fast lead. Naturally they let up. They lost the ace and the drive. Taking things easy never pays in sport. The champs began to slip, while the pursuit steamed up. A month ago the Huggins athletes were leading the march by 15½ games. Now they have been chopped to five and a half positions.

The Athletics played up eight full games in four weeks, by winning 24 games out of 30, while the pae-mahs were getting 17 out of 22. The same procession by the two clubs for the month of August would find the Philadelphia team leading by two games and a half when September came along.

Danger will spur the Yanks to great efforts, of course. But they may not be able to find the old spirit and lead, and, if not, let it be fearfully hard to regain. Fortune, laughed at, generally turns sour.

Other clubs have lost their fear and respect of the Yanks. They are all out to knock the crown off. For the New Yorkers have been a hard bolted bit in their days of triumph. They rode roughshod over the pack. Now the pack is doing most of the mauling.

ANOTHER DAY OF DISASTER AND WELL BE HEARING OF POISONED FOOD SLIPPED TO OUR OLYMPIC HEROES. MAYBE THEY SERVED AMERICAN BEVERAGES ON THE GOOD SHIP NOBLESSE.

Ankhor, the 666 millionaire did not need their income tax reports on that flap of the century.

DEMPEY WILL PACK 'EM IN AT WIGWAM

JACK DEMPEY comes back this evening and his presence will attract a record crowd to Braves Field. Jack is so popular that the police officials have provided a special escort to meet him at the train. They know the Tiger would be up traffic if he rambled through the city on his own.

Dempsey made boxing a big money proposition. He was the sole reason for the million-dollar prize. He is so popular that the police officials have provided a special escort to meet him at the train. They know the Tiger would be up traffic if he rambled through the city on his own.

The boys who are willing to pay money for a fight should get it, and not the coach and quibbles to the contrary notwithstanding.

New England Golf Owe
Much to Famous
Golf Pair

By BILL GRINES

Regardless of the fact that Fred J. Wright, Jr., of Albemarle regained his Massachusetts amateur title at Essex and Jesse P. Guilford, of Woodland, failed to win the New England, it is quite probable that the handicap committee of the Massachusetts Golf Association will vote to change the present rating of either of these players.

Guilford and Jesse Guilford rightfully share the honor of being the only scratch men in Massachusetts. Guimet and Guilford have, in a large measure, been responsible for the development of golf in New England.

Guimet is a former United States open champion, and has also held the United States amateur title, and six times he has been the amateur champion of the State.

Guilford won the United States amateur title in St. Louis, where he defeated Chick Evans of Chicago, in 1912, and he has since won a number of other titles.

JESSE GUILFORD is the only amateur that ever won a Massachusetts open. In 1912, at the Worcester Country Club, Jesse had defeated Chick Evans of Chicago, in 1912, and he has since won a number of other titles.

by winning his heat in 15 seconds, beating off Atkinson, another South African, by three yards. Atkinson finished second to Dan Kinsey in the 1924 race.

COLLIER QUALIFIES
Johnny Collier, of Brown University, the fourth American entered, also came through nicely, winning his heat in 15 seconds flat. He was forced all the way by the Finn, Sjöqvist, the latter being inches back at the tape.

The preliminary heats were concluded without the vestige of an upset. Lord David Hursey, conqueror of Morgan Taylor and Frank Cahill in the distance hurdles yesterday, also qualified in today's event, at 21.4 seconds, equalling the Olympic record. The Swedish fellow Brittoners, the twins, and Warrington, the German, Stenhardt, the French, Sempe and Marchand.

Leigh Dwyer revived America's hopes, somewhat, by winning a semi-final heat of the 110-meter hurdles in 14.4 seconds, equalling the Olympic record. Gaby, England, was second.

In another of the semi-finals Weightman-Smith was clocked in 14.5 seconds, beating the Olympic record and also the world record, although the latter had been lowered on American tracks previously.

Johnny Collier was second but Garling, New York A. C. failed to survive the heat, finishing fourth. Steve Anderson of Washington beat Anderson of South Africa in the second semi-final, in 14.2 seconds, thus assuring himself a place in the final. Lord Burdette, winner of the 40-meter hurdles, was shut out of the final.

Henry Cunningham, Newark A. C., sent America away to a flying start in the 30-meter trials by winning the heat in a career in 22.5 seconds. He wasn't present at any time in leading Mouron of France home by a yard.

FADDOCK RUNS WELL
Charley Faddock also won his preliminary heat without trouble, in 21.8 seconds. The Cuban, Barrientos, was drawn in this heat but scratched at the last moment.

P. Alfred Butler, Penn State entry, topped the second series in the 30-meter trials with a leap of 24 feet 3.13 inches but Baum's original effort kept him well in the lead. The American came off considerably when De Hart Hubbard, the negro who formerly held the world's record, pulled on his first three jumps and then suffered a recurrence of an ankle injury, forcing him out.

The competition Hubbard was the 12th winner of the jump at the 1924 Olympics. Hubbard had won his best, counting, in 22.13 seconds. He was followed by a series of scratches. Charley Borah and the German, Nibbeling, began their best alone. Charley allowing the German to win.

The commander, in a reply expressing appreciation, calls it an act of astonishing generosity.

HOOVER WILL ATTEND FARM CONFERENCES

Chicago, July 31 (AP)—A conference between the Republican presidential nominee, Herbert Hoover, and representatives of the farm and stock raising interests will be held at the village of his birth, West Branch, Ia., where he is to speak August 21.

James W. Good, western campaign manager for Hoover, said in making the announcement that Hoover would make no public address in Cedar Rapids, but would devote his time to the conferences.

A public mass meeting has been arranged for the evening of August 21 to be addressed by other speakers.

For the conferences were fixed to coincide with Hoover's return to the village of his birth, West Branch, Ia., where he is to speak August 21.

Hoover Makes Third Try for First Fish

Brown's Camp, near Hornhook, Cal., July 31 (AP)—Isolated in a fishing camp, Herbert Hoover today sought desperately to land his first catch of the trip.

The Republican nominee traveled 415 miles by motor car, fished in two big mountain streams, but failed to get to catch a fish. He arose with the dawn today, ate a hurried breakfast and disappeared to the valley. He tried his luck in the Rogue river, a few miles from Medford, Ore., yesterday, but without success.

Photographers who wanted Hoover to snap pictures were blamed for scaring away the fish. Then he drove 63 miles through the Siskiyou Range to the camp at the headwaters of the Klamath river, but caught no fish here.

"I don't feel we had when Rayman Wilbur tried, too, and failed," observed Hoover.

Wilbur, a brother of the secretary of the state, has a great fishing reputation in this state.

If the nominee should fail a third time today his party probably will move on to the Pitt river, within sight of Mount Shasta.

Hoover will leave this region tomorrow night in time to reach his home at Palo Alto Thursday morning.

CODDLING IS BAD

By CONSTANCE CAMERON

It was a clock of a day when Mrs. Gray had gotten up with the birds, washed the family dishes, prepared a warm luncheon for her husband and daughter, who attended high school, made the house neat and fairly presentable in the afternoon, and now Margery, the daughter, had returned from her afternoon session at school.

"Margery darling," pleaded Mrs. Gray gently, "go and lie down a while. You are going to your society party tonight and you want to be fresh and rested to have a good time. I'll throw out a few things that are just about right to leave you. Run along."

Worried lines circled the mother's eyes, but her expression was one of stern, patient martyrdom. What she was doing everything she could for her daughter? What she was proving herself to be a good mother to Margery?

It turned out a few years later that she had not. Margery married. Mother was in distant city, and the small apartment had to be sold, and on a small budget, there was no way to say "Run along."

MEDITATIONS OF A WIFE

By HELEN ROWLAND

SOMETIMES, I think that what makes a man attractive to women? ...

Most men appear to think that just being a MAN is an irresistible charm in itself—like being a blonde or a prize Angora or a brand new baby.

And that thought, alone, sustains their amour propre, makes them feel "unconquerable," and frees them of any inferiority complex.

When it comes to doing the charming, most men leave all the heavy work to women. It never occurs to a man to wonder if his wife is becoming, or if his home is snug. Unless he is a professional shirk, he never even stops to ask himself whether he is "it" or not. The whole question is in his mind whether or not the woman irritates him. Once that is settled it's all over but ordering the flowers and telling her the glad news.

Self-contentment is a wonderful thing! It's a pity that more women are not filled with that sublime self-complacency which is the basis of all savoir faire, and personal magnetism.

It is only when a man's self-confidence wanes and turns into conceit that he becomes self-conscious and loses all his "it." For a little woman makes a woman more confident, but it makes a man positively laughable!

What is magazine "it" anyway?

When Pain Comes
Two hours after eating

What many people call indigestion
very often means excess acid in
the stomach. The stomach nerves have
been over-stimulated, and food
sours. The corrective is alkali,
which neutralizes acids instantly.
And the best alkali known to medicine
is Philip's Tablets. It has remained
the standard with physicians in the 50
years since its invention.

One spoonful of this harmless,
tastes alkali in water will neutralize
infinitely many times as much
acid, and the symptoms disappear
at once. You will never use crude
methods when once you learn the
efficiency of this. Go get a small
bottle to try.

Be sure to get the genuine Philip's
Milk of Magnesia prescribed
by physicians for 50 years in cor-
recting excess acids, 25c and 50c
a bottle—any drugstore.
